NOTE—Contn sheet

GHB—20 000—20 1 12

Submitted to His Highness

44 These papers relate to the recommendation of the Inspector General of Education for a monthly grant of R 20 from the 1st July 1911 for a new Weaving School for Panchamas proposed to be started at Kadalgere (a village about a mile from Melkote), as a branch to the Industrial School at Melkote The Inspector General proposed that the charge in question may be met from grants to certain aided Sanskrit Schools which had been closed

2 It may be noted that the Superintendent of the Industrial School at Melkote had asked for a monthly grant of Rs 25 for scholarships Rs 200 for a shed and Rs 50 for Tools and Materials The Inspector General however recommended a monthly grant of Rs 20 and stated that separate proposals would be made for the lumpsum grants required for the shed and tools

3 After some correspondence in regard to the provision suggested for meeting the proposed charge the papers were referred to Branch II(Financial) for

Ft 15

remarks

Page 3 g notes

4 The Financial Department was of opinion that "in the present condition of the finances increased expenditure however good and desirable has to be postponed "

D.

5 Thereupon the Inspector General was asked to report whether the new Weaving School could not be conducted without scholarships to beginners The Inspector General in reply stated that the Circle Inspector, Mysore was of opinion that scholarships were very necessary to induce poor Panchama parents to send their children to the school and that if scholarships were not granted the boys will rot continue sufficiently long in the school

Page 8 g notes

6 The First Councillor thereupon noted that scholarships of a small amount may be given after the boys have learnt enough to turn out some work say after 6 months He also stated that as the Budget has already been passed the amount necessary can be sanctioned if the Inspector General can find the money from savings

7 The papers came up before me with a draft order sanctioning the grant as a tentative measure and

and meeting the charge from the savings pointed out by the Inspector General

Page 9 notes

8 I agreed with the Financial Department and stated that the application had to be declined We have these industrial schools in more important centres where the work can be better supervised

Pages 9 & 10 –

9 With reference to this the First Councillor observed that while the Industrial Committee of the Conference and the Agricultural Committee were both spending money in matters connected with the advancement of such education, he was not sure if it is desirable to decline help altogether to such classes started by the Education Department and added that if the class is still going on satisfactorily, he would at least give the money required for equipping it at the start and that if asked the Inspector General will make a further report on what is required

Page 10

10 I then ordered the papers to be circulated to the Second Councillor and remarked that the comparison between the Education Department and the Economic Conference was not valid The Second Councillor thinks that the grant asked for may be granted

Page 12

11 The papers were then sent to me and I noted

noted that the school was not yet in existence and that when it comes to be and shews some vitality a grant-in-aid can be given under the rules I also pointed out that at present it seemed premature and we had more urgent calls to comply with and that the proposal to divert a grant for Sanskrit learning to a Panchama Weaving class not yet established seemed to be also of doubtful expediency

12 On the papers being recirculated, the First Councillor has stated that if the grant is not sanctioned for equipment, the school is not likely to come into existence The Second Councillor agrees with him and thinks that we should at least sanction funds for equipment

13 As there is thus a difference of opinion between the Councillors on the one hand and the Financial Department and myself on the other I submit the case for orders

No 7054 / 528

Bangalore 13th February 1911

Edn 284-10

From

J WEIR ESQ M A

Inspector General of Education in Mysore

To

C S Balasundaram Iyer, Esq , B A ,

Offg Secretary to the Government of H H the Maharaja of Mysore, General and Revenue Departments, Bangalore

SIR

I have the honour to inform you that it is reported that the Panchamas of Kadalagere, a village about a mile from Melkote, who at present can work on country pit looms of old pattern and who cannot weave cloths of 30 counts and upwards, are anxious to learn the use of improved fly-shuttle looms They have applied to the Superintendent, Industrial school, Melkote to open a class in that village to teach them the new method of weaving

2 The Panchama population of the village is reported to be 125, about 25 of whom are earning their livelihood by weaving Not less than 20 pupils can be expected if a weaving class is opened in that village Moreover there are about 18 villages with an agregate Panchama population of about 500 within a radius of 3 miles from Melkote A good many of these also may be expected to derive benefit from a weaving class opened in a central place It is intended to open a class at Kadalagere as a branch to the aided Industrial school, Melkote, the Superintendent of which has agreed to supervise the work, and to lend the services of the Weaving Maistry of his school and also one or two fly-shuttle looms of Calicut make free of cost to the Panchama weaving class

3 The Superintendent of the Industrial school requests that a monthly grant of Rs 25/- for awarding scholarships of Rs 3/-

and

and Rs 2/- for 10 Panchama boys as a special encouragerent to the depressed classes and a lump sum grant of Rs 200/- for erecting a shed and Rs 50/- for purchasing necessary tools and materials, may be sanctioned The Inspector of schools strongly recommends his proposals

4 Under these circumstances I request that Government may be pleased to sanction a monthly grant of Rs 20/- for the new weaving class for Pancharas with effect from 1st July 1911 for two years as a tentative measure, the charge being met from the provision of Rs 23¾ being the amount of grant to the aided Sanskrit schools at Hanasoge Yedatore Taluk, and Hemmige T Narasipur Taluk which are reported to have been closed as the people failed to contribute towards their maintenance

5 A seperate recommendation will be sent up for the lump sum grants required for the shed and tools

I have the honour to be,
